

Registration deadline/ Course cancellation

Registration deadline for Career Service webinars and lectures is two days prior to the event. At the time of the registration deadline, withdrawal from the course will then be blocked. Course members and students on the waiting list must deregister by this time if they are no longer interested in attending!

Subsequently, deregistration is no longer possible and participation in the webinar/lecture is mandatory if you are a member. This is the only way we can ensure that students on the waiting list will be able to take advantage of available seats. For the webinars & lectures we hire professional trainers* in whose seminars we want to enable as many students as possible to participate. Depending on the capacity of the respective event, non-attendance may lead to a blocking of participation in further events!

Registration process

For the first 48 hours after the start of registration, all registrations for events with limited places will be collected on a waiting list and then drawn by StudOn. Afterwards, free registration is possible. If the webinar or lecture is already full after the first 48 hours, all other registrations will be placed on the waiting list and will automatically be moved up according to the registration time if registered participants drop out. Therefore, please pay attention to the system mail from StudOn, which informs you about a confirmation of the course!

Technical information about participation

On the day before the event, you will receive the access data for the webinar or lecture by e-mail via StudOn!

Eligibility

All students at the Department of Business, Economics and Social Sciences who are not blocked may participate in the events.

If you are not one of these people or are blocked for the webinars/lectures this semester due to unexcused absence, please do not register for the events!
